born on 8.8.1999

Education

- Sep 2024– **PhD in Computer Science, TU Delft, Delft, Netherlands.**
Aug 2028 **Research Area:** Scalable Cloud Applications (Supervisor: Prof. Asterios Katsifodimos)
- Sep 2020– **MSc in Data Science, ETH Zürich, Zürich, Switzerland.**
Aug 2023 **Thesis Title:** Efficient ML Input Pipelines via Operator Reordering (Supervisor: Prof. Ana Klimovic), defended in February 2023 with grade 6
- Sep 2017– **BSc in Computer Science, King's College London, London, United Kingdom.**
Aug 2020 **Thesis Title:** Local Search for AI Planning (Supervisor: Dr. Andrew Coles), defended with a First Class Final grade: First Class Honours

Research Interests

Data-Intensive Systems, Databases, Cloud Computing, Systems for ML, Data Science

Programming Skills

Programming Languages: Python, C++, R, Java, Scala, SQL

Cloud Technologies: Google Cloud, Kubernetes, Kafka (Confluent Certified Developer for Apache Kafka), Azure (Microsoft Certified: Azure Fundamentals), AWS

Machine Learning Libraries: TensorFlow, PyTorch, SNA (Social Network Analysis package in R)

Work Experience

- Sep 2023 **IT Consultant, Innovation Process Technology AG, Zürich, Switzerland.**
–Aug 2024 **Tasks:** Development and maintenance of an Apache Kafka cluster for the LGT bank.
- Feb–May 2023 **Research Assistant, ETH Zürich, Group of Prof. Ana Klimovic, Zürich, Switzerland.**
Tasks: Efficient ML Input Pipelines via Operator Reordering and Computation Placement. This was a continuation of my MSc thesis work with the aim to publish it at a relevant conference. The code can be accessed at: <https://github.com/eth-eas1/cachew/tree/oto-pecan>
- May–Jul 2022 **Research Assistant, ETH Zürich, Group of Prof. Benjamin David Stocker, Zürich, Switzerland.**
Tasks: Drought Impact Forecasting Using Deep Learning Techniques. Coding, experiment design and execution, paper writing.
The code can be accessed at: https://github.com/rudolfwilliam/satellite_image_forecasting The work led to a publication in the Ecological Informatics journal (see Publications below).
- Feb–Jun 2022 **Teaching Assistant, ETH Zürich, Zürich, Switzerland.**
Course: Cloud Computing Architecture (taught by: Prof. Gustavo Alonso, Prof. Ana Klimovic)
Tasks: Designing and leading exercise sessions, designing and grading the course project, designing of exam questions
- Jun–Aug 2020 **Software Engineering Internship, MEDIAN, s.r.o., Prague, Czech Republic.**
Jul–Sep 2019 **Tasks:** Working with large-scale databases for big poll data. Developing an application for merging data collected from different surveys that include hundreds of thousands of entries (customers included advertising agencies, media corporations, and credit card issuing companies, e.g., VISA). Programmed in SQL, C++, Python and R

Sep–Dec 2019 **Teaching Assistant**, *King's College London*, London, United Kingdom.
Course: Practical Experiences of Programming (the objective of the course was to teach students C++ and Scala; taught by: Dr. Andrew Coles and Dr. Christian Urban)
Tasks: Leading exercise sessions, guiding students with their coursework assignments

Recently Accomplished Projects

Master Thesis, 2023 Designing and implementing a **Policy for Operator Reordering in ML input pipelines**. Code and documentation accessible at: <https://github.com/eth-easl/cachew/tree/oto-pecan>

Interactive ML, 2022 Designing an **Interactive Data Visualization Tool** in the Domain of Real Estate. Tool accessible at: <http://realestateguru.course-xai-impl23.isginf.ch/>

Applied Net. Science, 2022 **Predicting the Outcome of Basketball Matchups** using data science techniques. Code and documentation accessible at: <https://github.com/omrazCZ/ANS>

Data Science Lab, 2021 **Drought Impact Forecasting**. Predicting the impacts of droughts on vegetation. Code and documentation accessible at: http://github.com/rudolfwilliam/satellite_image_forecasting
